Objection to the Specification

On page 2 of the Office Action, the Examiner objected to the specification because serial numbers of related applications were missing from the specification. By this amendment, Applicant amended the specification to include the serial numbers of related applications. Therefore, Applicant respectfully requests that the objection to the specification be withdrawn.

Allowable Subject Matter

On page 2 of the Office Action, the Examiner indicated that claims 26-28 are allowable, but are rejected as being dependent upon a rejected base claim. Applicant amended claims 26 and 27 to be in independent form including all of the features of the base claim and any intervening claims. Therefore, Applicant submits that claims 26-28 are allowable and respectfully requests that the objection to claims 26-28 be withdrawn. Claim 31 should be allowable in that it corresponds to allowable claim 26.

Claims 1-25 and 29-30

Applicant canceled claims 1-25 and 29-30 without prejudice or disclaimer thereby making the rejection of these claims moot. Applicant, therefore, respectfully requests that the rejection of claims 1-25 and 29-30 be withdrawn.
